

# USER ACCEPTANCE TESTING REPORT

**Project:** Real Estate Management System (REMS)

**Prepared By:** Ankitha G Bangera

**Date:** 27/11/2025

## 1. Introduction

User Acceptance Testing (UAT) is conducted to validate whether the Real Estate Management System meets business requirements and is ready for end-user usage. The objective is to ensure the system works as expected from a business and user perspective.

## 2. UAT Objectives

- Validate end-to-end business flows
- Ensure system meets user expectations
- Identify any defects before production release
- Obtain business approval for deployment

## 3. UAT Scope

The following modules were covered during UAT:

- User Registration and Login
- Property Listing Creation
- Property Search and Filter
- Property Booking Request
- Admin Approval Proces

- User Logout

## 4. UAT Test Environment

Item	Description
Application	Real Estate Management System
Environment	Test / UAT
Browser	Chrome
Database	MYSQL
Users	End Users, Admin

## 5. UAT Test Summary

Total Test Cases	Passed	Failed	Not Executed
7	7	0	0

## 6. Key Findings

- All major business functionalities worked as expected
- No critical or high-severity defects were identified
- System behavior aligned with business requirements

## 7. Issues & Observations

- Minor UI improvements can be enhanced in future releases
- Performance was acceptable for normal usage

## 8. UAT Sign-Off

Based on the UAT results, the Real Estate Management System is approved for deployment and considered ready for production use.

## 9. UAT Approval

Name	Role	Signature	Date
Business User	UAT Approver	-----	-----
Project Sponsor	Sponsor	-----	-----
